

## **Tanzania's agricultural sector is undergoing a significant transformation!**

*Tanzania's Agriculture Booming: Higher Yields, Livestock Nutrition & More!*

Tanzania's agricultural sector is undergoing a significant transformation! CEO of SAGCOT Centre Ltd., Geoffrey Kirenga, highlights key areas of progress:

**Soaring Crop Yields:** Farmers are achieving yields up to 10 tons per hectare, rivalling those of leading producers like Iowa!

**Improved Livestock Nutrition:** Programs ensure animals receive better feed, leading to increased value and productivity.

**Investing in Poultry:** Recognizing Africa's poultry import dependence, Tanzania empowers young people, especially women, to enter this sector.

**Unlocking Fisheries Potential:** By developing the aquaculture value chain, Tanzania aims to become self-sufficient in fish production.

**Collaboration is Key:** The successful "corridor approach" brings together government and private sectors to tackle policy and infrastructure challenges.
